

A RESPONSIBLE FUTURE
FOR OUR BUSINESS AND OUR CUSTOMERS

SUSTAINABILITY

OUR RESPONSIBILITY

Renray Healthcare is committed to protecting the environment as a responsible and environmentally conscious company. In carrying out this commitment, Renray strives to minimise its impact on the local and global environment, while providing quality products that meet the needs, specifications and satisfaction of our customers.

SUSTAINABLE DEVELOPMENT GOALS

UNITED NATIONS SUSTAINABILITY GOALS

The UN Sustainable Development Goals SDGs are a blueprint of how to achieve a sustainable future and are a part of the United Nations 2030

Sustainability Agenda, a global plan to promote sustainable peace and prosperity and to protect our planet. To achieve this ambitious goal we all must work together.

3 GOOD HEALTH AND WELL-BEING

8 DECENT WORK AND ECONOMIC GROWTH

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

DOING OUR PART

Out of 17 SDGs in total, Renray contributes the most to the following four SDGs with our business and our actions:

SDG 3 – Our products create a positive impact on the health and quality of life of end users in UK Healthcare facilities.

SDG 8 – It is our responsibility to respect human rights both within our company and along our supply chain. That is why we are dedicated to upholding appropriate and fair conditions of work safety and remuneration.

SDG 9 – We use our expertise in design and manufacture to make our products, processes and infrastructure sustainable. Providing innovative products to continue our growth and stability.

SDG 12 – We use resources efficiently and reduce waste and emissions. We pay attention to this in our product development and in our manufacturing activities.

Our management approach and activities also support SDG 4 Quality Education, SDG 5 Gender equality, SDG 6 Clean water and sanitation, SDG 7 Affordable and clean energy, SDG 13 Climate action.

SUSTAINABILITY PILLARS

ENVIRONMENT

- Environmental Management System
- Environmental Monitoring
- Reduce carbon footprint
- Reduce pollution
- Save Energy
- Save Water
- Waste and recycling
- Transport emissions
- Good Design

SOCIAL

- Promoting Equality and Diversity
- Engagement of staff and local communities
- Promoting sustainable development
- Promoting health and safety
- Offering fair and equitable wages

GOVERNANCE

- Meet applicable laws and regulations,
- Meet industry best practice and trends
- Create a stable business
- Be financially resilient
- Ensure long term viability
- Our contribution as an employer, paid in wages and benefits
- Indirect economic impact through our spend with supplier partners

**Committed to
reducing the
environmental
impact of our
activity.**

ENVIRONMENTAL MANAGEMENT SYSTEMS

Renray implemented the ISO14001 Environmental Management System.

Compelling us to take an in-depth look at our manufacturing processes and implement managerial commitment to reduce our environmental impact.

Renray achieved ISO14001 certification.

Improving our environmental performance through more efficient use of resources and reduction of waste and put environmental management at the heart of our Quality Management Systems.

We utilize our investment in ISO14001 to Save Energy, Save Water, Reduce Waste, Improve Recycling and Reduce our transport emissions with progressive logistics.

ENVIRONMENTAL MONITORING

WHAT WE MEASURE AND MONITOR

All Renray's sites are monitored for their effect on the environment, every conceivable contributor is measured to maintain Renray's commitments and responsibilities.

Packaging materials
Waste disposal
Energy and resource usage
Emissions / CO₂ levels

REDUCE, REUSE, AND RECYCLE

*Packaging materials are a key element
in reducing our carbon footprint.*

- To ensure products are protected and arrive in good condition ,the minimum amount of packaging is used for every delivery.
- We use blankets as our go to environmentally safe protection during transit where possible instead of plastic/cardboard.
- We install and take away all packaging following delivery.
- All packaging is returned to the factory for reuse on future deliveries or for recycling.

What we do makes a difference.

Every day.

PRODUCTION

Sustainability has been a key factor in Renray manufacturing for many years

Making sure our key raw materials come from the most sustainable sources available to us, protecting the environment and the world's natural resources for future generations.

Providing and maintaining working practices that have the least detrimental effect on the global environment.

We run a high performance production chain. Maximising our resource efficiency and improved productivity.

We build to order, employ lean manufacturing and suitable stock holding for efficient delivery.

Continual Improvement & Identification of Risks

Renray employs continuous improvement by maintaining and evolving to meet our ISO9001, ISO14001, ISO45001 management systems and SHEQ manual.

Ensuring we are always improving systems of work including an on-going systematic approach to identifying and managing relevant risks within the supply chain.

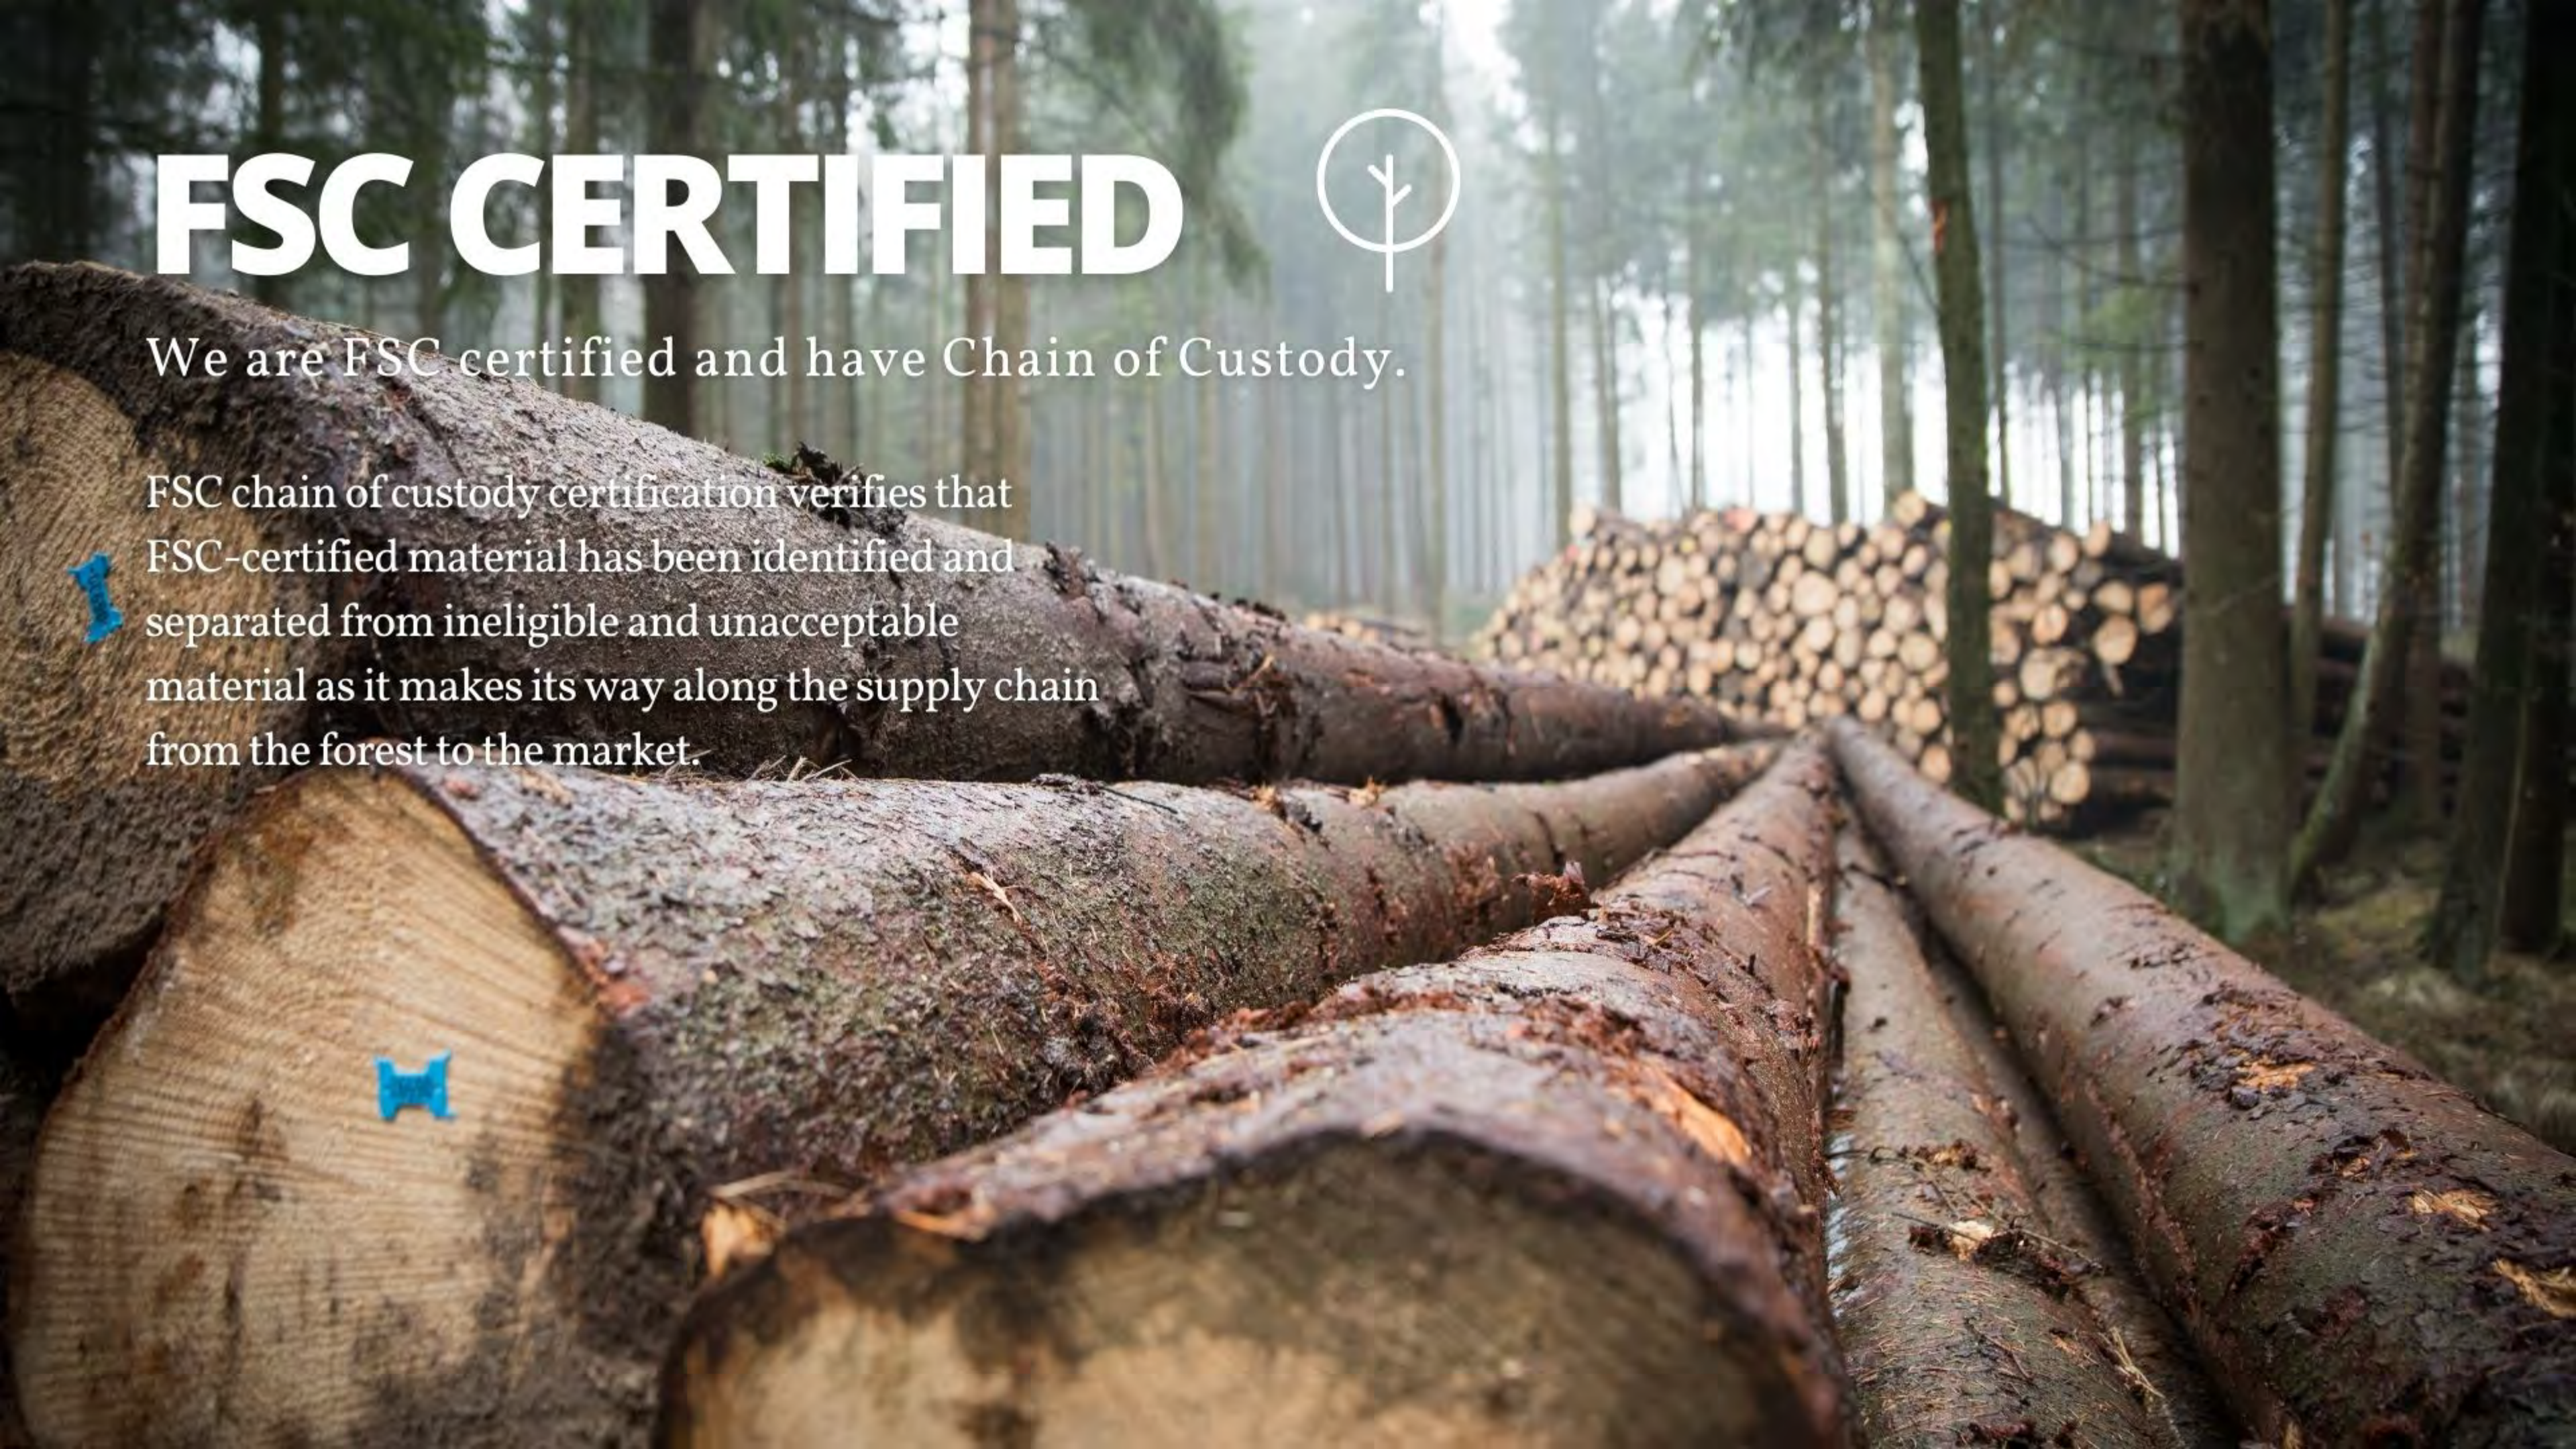

Monthly commercial and SHEQ meetings are held to review performance and areas for improvement.

FSC CERTIFIED

We are FSC certified and have Chain of Custody.

FSC chain of custody certification verifies that FSC-certified material has been identified and separated from ineligible and unacceptable material as it makes its way along the supply chain from the forest to the market.

SUPPLY CHAIN

Not just us. Our suppliers too.

Part of the process of being a supplier to Renray, is a vetted supplier process to create a partnership of sustainability sourcing from approved suppliers who meet Renray's Environmental and Corporate Social Responsibility requirements.

Local suppliers are used where possible, they are audited and adhere to a code of conduct ensuring that their production processes meet certain sustainability criteria.

SAVE

ENERGY

Renray's commitment to sustainability includes reducing energy consumption.

- **Compare monthly consumption by doing energy audits and pinpoint where energy is being wasted**
- **Service boilers once a year, to minimize heating costs**
- **Program smart thermostats remotely to turn on at specific times and locations**
- **Use e-signatures and digital documents instead of printed forms to save on paper and printing costs**
- **Use battery powered tools at installation i.e. rechargeable**

ENERGY SAVING TIPS

- **Replace light bulbs with energy saving alternatives i.e LEDs**
- **Label the switches of operating machinery so staff know they can turn off when not in use**
- **Switch off lights in offices & meeting rooms when not in use**
- **Switch off appliances overnight and weekends**
- **Put up posters and use social media to raise awareness of efficient energy use**
- **Move cupboards and filing cabinets away from radiators**

SAVE WATER

- **Check for any leaks and drips in buildings**
- **Regularly inspect and maintain the water system**
- **Keep track of water bills so aware of any unexpected spikes in consumption**
- **Reinforce the importance of saving water**
- **Get support from water company for audits and strategy**

Environment
Agency

REGISTERED WASTE CARRIER

Renray is responsible for making sure that all waste we carry is handled safely and legally.

As a licensed carrier Renray is able to handle waste for our manufacturing operation and for our customers when required, ensuring that waste which cannot be economically recycled is disposed of by licensed and regulated waste companies.

Renray complies with hazardous waste regulations by labelling containers appropriate to various types of waste (cardboard, metal, plastic, wood, mattresses) and identifying waste types.

Certificate of Registration under the Waste (England and Wales) Regulations 2011

Regulation authority
Name Environment Agency
Address National Customer Contact Centre
99 Parkway Avenue
Sheffield
S9 4RF
Telephone number 03708 506506

The Environment Agency certify that the following information is entered in the register which they maintain under regulation 28 of the Waste (England and Wales) Regulations 2011.

Renray Healthcare Ltd
waste carrier, broker and dealer

TRANSPORT

Government figures show that transport accounts for almost a quarter of UK greenhouse gas emissions.

Renray constantly aims to minimise the impact vehicle emissions have on the environment; we identify and implement transportation/distribution practices to obtain greater efficiencies:

- Utilising wagon and drag transport; with 38 swap bodies within our fleet which have 125% more capacity than an arctic lorry meaning fewer trips are required due to the amount that can be loaded in one trip.
- The use of wagon and drags also means Renray uses less fuel due to a more efficient logistics schedule
- Our double sleeper cabs mean we can generally send all delivery manpower with the load minimising the need for additional transport

Transport

COMMUNICATE

Our Logistics Co-ordinator telephones one week prior to delivery to check you are ready to receive delivery.
Our DBS checked driver/van assistant will telephone one hour prior to arrival

we plan a better route

EFFICIENT DELIVERY ROUTES

Renray schedule and manage weekly deliveries, assessing and monitoring any external factors that may affect delivery schedules, such as weather, traffic, motorway closures, and advising any necessary workarounds.

Good Design

**Renray Healthcare were awarded
the Building Better Healthcare
Furniture and Fixings Award for
the Noodles mattress and cushion**

Dedicated to innovative design and greener solutions are part of our approach. Where possible we design and produce products in which all components are fully reusable.

**the first fully
washable &
recyclable
mattress**

SOCIAL

Upholding values that
promote fairness and
respect for individual rights

Social Values

EQUALITY AND DIVERSITY

Our policy is always to ensure that all persons are treated fairly irrespective of their sex, race, nationality, ethnic origin, colour, religion, religious belief, disability, sexual orientation, age, marital status, political beliefs.

STAFF ENGAGEMENT

Ensuring all employees understand and are responsible for incorporating environmental considerations into daily business activities. e.g., holding meetings and illustrating information on notice boards

SUSTAINABLE DEVELOPMENT

Our goal is to make sure our key raw materials come from the most sustainable sources available to us, protecting the environment and the world's natural resources for future generations.

COMMUNITY

Being an active member of the local and wider community. Engaging, supporting and sponsoring local activities. For example, Renray support the Healthy Planet adopt a plot programme. Healthy Planet is an on line charity which supports conservation of land, environmental issues and promotes a healthier planet and Renray have adopted one of their plots.

HEALTH AND SAFETY

Renray comply with all Health and Safety legislation and other similar laws and regulations, with all employees being updated of any changes in H&S legislation accordingly.

CODE OF ETHICS

It is our policy to comply with all applicable laws and regulations, and to demand the highest standards of business ethics and integrity from all our employees.

Our Policies

DIGNITY AT WORK

Policy available on request

Dignity at work is the principle of maintaining a healthy, safe and enjoyable place to go about your employment.

EQUALITY

Policy available on request

A written agreement about how Renray avoid discriminating against people, and how a safe and inclusive atmosphere is created for employees.

ETHICS

Policy available on request

Guidelines for all employees of a company to do the right thing and behave at high standards at all times.

GOVERNANCE

Governance

LAWS AND REGULATIONS

Being fully aware of all relevant environmental legislation and other requirements to which we subscribe and ensuring that these requirements are met, and wherever feasible, improved upon.

BEST PRACTICE

Being an active member of the local and wider community. Engaging, supporting and sponsoring local activities.

A STABLE BUSINESS

For the last five decades, Renray Healthcare has been committed to designing products with the end user in mind and tailoring services to fulfil our customers' requirements and vision.

FINANCIAL RESILIENCE

Renray Healthcare is registered at Dunn & Bradstreet with a credit rating that shows Renray is a financially sound business.

LONG TERM VIABILITY

A successful business since 1966, Renray has reinvested profits into the business, investing in new equipment to increase production and improve efficiency.

PARTNERSHIPS

Renray Healthcare has been a contracted supplier to NHS England and NHS Scotland for many years. In the care home sector we are a contracted supplier to several large care home groups and their new care home fitout programs.

Future Goals

**REDUCE OUR
CARBON FOOTPRINT
ACROSS LOGISTICS,
MANUFACTURING
AND PROCUREMENT.**

**CONTINUE TO
EDUCATE STAFF
ON ENERGY
EFFICIENCY.**

**COMMUNITY
TREE-PLANTING**

**DONATE TO
BLUEPRINT
DIVERSITY
CHARITY**
