BI-FLEX EVO
Ureteral Access Sheath

ROCAMED

�升 FLEXIBLE ATRAUMATIC TIP

The new Flexible Tip:
For access to the meatus providing security and ensures an atraumatic path in all tortuous urinary tracts.
Kink Resistant Coil:
Steel spires within the inner coil provide strength and stability while allowing easy entry and withdrawal of the endoscope.
�升 GRADUATED INNER PART

Graduated Inner Part:
To understand its position, in order to measure the dilation of the ureter with precision and safety.
Distal Platinum Ring:
Allows for visualization under fluoroscopy in order to confirm the location of the distal tip.
Tapered introducer/Dilator:
Tapers for an atraumatic introduction and dilation.

�升 2 WORKING CHANNELS

Designed to ease navigation through a tortuous urinary tract, the Bi-Flex Evo Ureteral Access Sheath has two working channels and a dilating catheter. At 3 Fr each, the channels include luer lock connections to allow for a safety wire and the injection of a contrast medium.

�升 BIGGER INNER DIAMETER

PEBAX®
STEEL SPRING
PTFE
10.5 fr inner diameter

12 fr outer diameter
